As a State Farm agent, your program puts me in a position which dominates specifically the market area where we are not only looking for new customers, but existing customers seeing this know that we are engaged in the community. Also, being seen daily throughout the year where the people live and shop at the neighborhood Supermarket is comforting, knowing that when the need arises my team and I are here to help with their insurance needs with not one but three offices in the Scottsdale area. It's also comforting to know that my IndoorMedia rep has my back. He stays in constant communication with me and addresses my needs in real time regarding being seen in key demographic areas. In the last few years my presence has grown from being seen in a couple of supermarkets to over a dozen supermarkets throughout the Scottsdale area. It's also nice that I have exclusivity in this program as opposed to being in a magazine where that is not necessarily the case. As the saying goes... like a good neighbor, State Farm is there.
