Comments:

We have been participating in the register tape program for a year now and have had an excellent return on our investment. We're so confident that I just signed and renewed our advertising contract for three more years and would recommend that businesses try this type of advertising. This program works really well for us. RTUI really helps bring people in coming back. It provides great exposure and it reaches people from our neighborhood. We're getting a handful of coupons everyday!!! We are in five Safeways now.
