Comments:

The ads are working very well. People are spending on average \$25-430 per visit, but some are spending even more. We are looking to attract the woman in the store to make purchases and it is working. I don't believe many of these customers would come with out a coupon. I've asked customers if i could help them when they have had a coupon in the hand and their response was, " I'm just looking around".
