Comments:

I have been advertising on the Safeway Store (312) on McOrmond Drive since December and my partner and I are pleased with the results. We are redeeming two to three coupons per day and we started getting coupons soon after the coupons began appearing on the back of the Safeway till tapes. This is a very effective way to advertise. Not only does it bring in new customers but repeat business, as well. I would recommend this type of advertising to other business owners. Overall, this is an inexpensive way to advertise with an acceptable rate of return on my investment.
