Comments:

I love Cartvertising because even though Anytime Fitness is a worldwide brand it becomes personal when people in town see a local face on the ad of a locally-owned business. I've been advertising w/Cart for 3 years and I still have people come up or text me and tell me they see me on the carts. This has played a HUGE role in my membership gains. We are busier than ever with more memberships than we've ever had. Jeff has been great to work with and the ad creation is simple and seamless which makes it super convenient. I can always count on Jeff reaching out on the first of November to renew and it's not a high-pressure process. I am happy to renew yet again this year!
