Comments:

This letter is to let you know how happy and satisfied I am with the response to my marketing on the till tapes at the Safeway stores. Between my two locations, which varies from eighty to one hundred cars, per day. I average (at least) one coupon from a Safeway customer. I consider this to be a strong response compared to some of the other advertising methods I use. Once again, thank you for your service. I can recommend it to anyone.
