**Comments:**

We've had a huge growth in Kuna and Cartvertising is a great way to familiarize new residents with my local business. It also reminds long-term residents of my business and location options. Cartvertising is easy to work with. They have been patient, flexible, and worked around my very busy work schedule. We are very happy with the design of our ads. It is good to have Jeffrey Head to work with the person-to-person contact every year and whenever we need him.
