Comments:

I've been working with IndoorMedia for a few years now, they have always delivered extraordinary results from their Register Tape Campaign. Because of these results, I've renewed for 3 years! Six months ago, I added their Digital Boost product. The results have built every month. In November, I had my best month ever with 470 new customers. Then in December, I beat that with over 500! I just renewed my first 2 Digital pins and added 2 more! This is the only advertising I am doing. Highly recommend this to everyone but my competitors! I greatly appreciate the service Ralph has delivered since the beginning!
