Comments:

After Hieu came and showed me the program, even after we agreed to proceed, my husband was still very skeptical, and he even called in to cancel a couple of days later, but ultimately, I decided to try it out. The first week this program started, I received 2 coupons immediately. Not only are they brand new faces, but they spent over \$200 as well! I did not think the redemption would come in this fast because Hieu specifically said let's feel it out for the first 2 quarters and do not expect much. As a new business owner who just took over the location recently, I was really looking for a good marketing strategy that would actually drive people in. As we are coming into the third quarter now, the program is still consistently building up, and we get roughly 5-6 coupons coming in weekly. IndoorMedia and Hieu really made us feel, from being super skeptical to excited, and realizing that such a simple way of advertising can bring in such quick new faces!
